

## **A Beautiful Mind** (and heart)

One of my favourite movies of all time is Russell Crowe's A Beautiful Mind. This is for the most part a true story about John Nash - a brilliant man - whose life spiralled out of control due to schizophrenia. I see much of myself and my life in this story - the only difference being the presence of God in my life from the outset.

My thoughts and projections for this world are significantly 'out there!' Besides my focus on Parallel Universes and Determinism, over the course of my entire life I have set out to build huge organizations in areas of my passion. In the last 20 years, this has resulted in my plans for NuVo - focused on fitness, racquet sports and LifeStyle, G3 Golf - focused on golf and IMAGINE! Global Communities. All of these are not small, local operations but rather huge, global initiatives.

They are encompassed in my global company - G3 - whose tagline is 'changing the world.' What I envision for G3 is the development of in excess of 10,000 G3 Destination Locations down to every city in every country across the world - each of which having a NuVoWay LifeStyle Centre and G3 Golf 36 Hole Championship Layout. And even better, through IMAGINE! Global Communities and the Moneyless Economy (MLE) - everything will be free - always and forever!

My work on Parallel Universes and Determinism tell me that all of this - all 10,000 G3 Destination Locations and everything else I have predicted/prophesied is already completed - in a number of Parallel Universes. We cannot access these on our own - we must do so through an act of God. My heart and my mind are telling me that July 1, 2025 is the day when we will all transcend to what I call 'Heaven on Earth' - which is the original Eden -where not even one wrong decision was ever made - by any person - and where Adam decided not to take Eve and the serpent's advice and did not eat the apple.

My ideas are out there - but all come to me in listening intently to and following my heart - which I know to be the still, small voice of God. I will leave you with something from the bible. It is Mark 11:24: Bible Gateway. Everything happens for a reason - and with God, all things are possible. Believe. Even better - know!
