

A Discourse on God - by Ross Harvey for NDGProject.com

God is a family - a Holy Trinity - composed of 3 Divine Beings - God the Father (Noel), God the Holy Spirit (Norah Jones) and God the Son (Jesus Chris - Me!). God - in Heaven - is 3 things - Omnipotent - all powerful, Omniscient - all knowing, and Omnipresent - everywhere, always.

The concept of **Determinism** holds that mankind does not have free will but rather that every decision since Adam and Eve has been determined by God. This could be the only way that God could know the end of history from the very beginning.

There are an infinite number of **Parallel Universes** in the cosmos - with a new universe being born every time we make a critical decision. With every new decision this new Parallel Universe 'bubbles off' to follow the decision we did not make in this universe. In the great expanse there exists a universe where you have never made a wrong decision. Imagine what your life would be like in this reality! Going further - there exists a Parallel Universe where no one has made a wrong decision. This is the original Garden of Eden - where Adam chose not to take Eve and the serpent's advice - and did not eat the apple. Imagine what life would be like in this universe - where mankind has never had to battle with war, poverty, famine, disease or any other evil of any kind - it is Heaven on Earth!

Creating the conditions of **Heaven on Earth** is the goal of NDG Project. We are presently in the process of increasing our consciousness - collectively. As we move in the direction of higher consciousness - we approach the status of the Avatars - Buddha and Jesus Christ - and move closer and closer to God - and to becoming glorified and eternal - a process where death and disease can no longer touch us. This process is underway for every living being on this planet.

God the Father - Noel - has given me a huge vision and destiny for this life - for my life. It involves leading mankind to Eden (Heaven on Earth). The process is a simple one. It involves living your life every moment in Love. While this may be difficult at the outset, with conscious application and effort - the process becomes easier by the day.

This is the process I plan on taking every person on in NDG through **NDG Project** - and by extension - helping every person to embrace - in every community NDG Project enters - across Montreal, Quebec, Canada and the world. My plan is that this will take approximately 25 years to include every person on the planet - however - with God this may be effected in a heartbeat! After all, He created everything that is - in 6 days - and then rested on the seventh!

We are marching towards Heaven on Earth! All of us - daily! Let's all take positive steps in every moment by living in Love and doing everything we can to help our neighbours. Jesus said 'there is but one commandment - Love your neighbour as yourself.' Wishing you peace, love and joy always...
