

Changing the world

Eternal Soulmates and Loving Partners

God has shared something very interesting about the world to come - Heaven on Earth - for all of mankind. Each and every one of us will have an Eternal Soulmate - that one person who fulfills a vast amount of our needs - but not everything. Our relationship with this person will be our most fulfilling in every way.

The future of golf.

With this said, our Eternal Soulmate will not and should not be everything. By nature, we are curious beings. We are interested in and want to know about, even experience, a myriad of opportunities. In heaven on earth, the door will be open to us to do so. One of the major areas/pleasures in life has to do with sex and lovemaking. God has provided the world with a HUGE variety of different sizes and shapes of human beings. All of this he had done for our enjoyment and satisfaction! As we move through this new world we will have opportunities at every turn to experience new partners and to explore our sexuality to the nth degree. This will be the case for every person!

The beauty of God's design is that we will be so comfortable and confident in our primary relationship with our Eternal Soulmate, that there will be no reservations or jealousy attached to our exploration - actually - at many intervals our Eternal Soulmates will be brought lto the mix - in menage a trois or even orgies. All of this is in the interest of fulfilling our every need and desire in this area of our lives. And as we move forward we will see that God has plans to do the same for us in all areas of our being.

I hope you like and are excited by this vision. It is very near - even at the door!

All my best,
