

IMAGINE! Global Communities

The latest works I have done have been on IMAGINE! Montreal and **IMAGINE!** Global Communities. These represent the descent of Heaven to Earth - for all of mankind - for eternity.

In Larry King's interview of Jacque Fresco from 1974 (!), Jacque mentioned that it would take 10 years to transform this earth into a second Garden of Eden. I don't see it as even taking that long!

Over 12 years ago Subhendu Das wrote his paper on Moneyless Economy (MLE). In many Parallel Universes, this idea has taken off and grown - to the point where it has engulfed the entire world! Mankind is living in Heaven on Earth - everywhere!

If this is the case - and it is - the question then becomes - how do we get to this place? The answer is transcendence. This is not something you can do on your own - it is a gift from God - at your appointed time! Right now, God is Rapturing people to the Great Day of the Lord. They are disappearing from this world - all over the planet! The next phase represents God's introduction of Jesus Christ to the world - to all of the world!

And then we will celebrate!

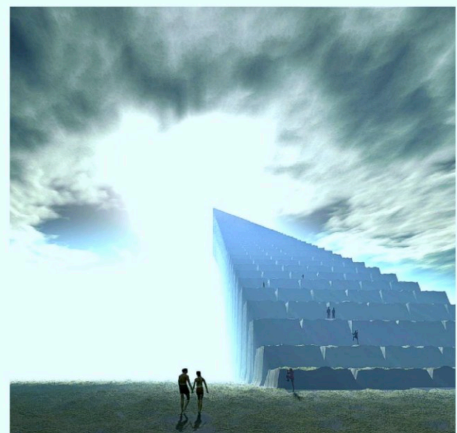

There is much that remains to be seen and done - and it has been given to me to mention that all of the negative events spoken of in the Bible will not happen. Here is a dream I had many years ago:

My Amazing Dream

I had a dream the other night. In my dream, Satan came to God and repented for all the havoc and evil he has wrought in the earth these last 6,000 years. In an unparalleled act of love, God forgave him and opened the gates of heaven to Satan and all the fallen angels.

In the bible there is a precedent for this. Luke 15:11-32 tells the story of the prodigal son...how he left his father's house, squandered all his father had given him on excessive living...and then returned to his father in shame...where his father feted his return saying; 'my son was lost and now is found.'

This could be the only way for God to end this great era in man's history and usher in the next, eternal era. God's great gift to every person who has ever lived or been conceived is life eternal in heaven on earth and exploring all that He has created in the vast universes.

Through this great feat by God, He has eliminated all evil from the world - for eternity. Everything we will be involved with will be good - and positive - for ever!
