

The Great Calling: 300 Pioneers of New Creation

In the fullness of time, God has revealed a vision so grand that it reshapes the very fabric of existence. At the centre of this divine narrative stands Ross Harvey, chosen to lead 300 pioneers —souls handpicked by the Creator, each carrying within them a unique spark of brilliance, courage, and faith. These pioneers will become the architects, adventurers, and ambassadors of a new creation, exploring dimensions beyond human comprehension and bringing back the light of their experiences to inspire all of humanity.

The New Earth: The Foundation of Glory

The journey begins on a transformed Earth, where every corner of the globe reflects Heaven's perfection. Here, nature thrives in perfect harmony, every creature exists in peace, and humanity walks hand in hand with God. The pioneers will first immerse themselves in this renewed Eden, mastering the art of living in divine abundance. They will study and refine systems of agriculture, energy, and community, forming the blueprint of a perfect society that will serve as the foundation for the civilizations yet to be discovered.

The New Jerusalem: The Infinite City of God

From Earth, the pioneers will ascend to the New Jerusalem, a city so vast it defies human comprehension. Suspended between Heaven and Earth, this city contains 1,500 levels, each one 1,500 miles long and 1,500 miles wide—a realm within a realm, a world within a world. Each level is a masterpiece of divine architecture, a self-contained universe with its own unique civilization, environment, and spiritual purpose.

1. The First Level: The Gateway Civilization

Here, the pioneers will experience the perfect blending of Heaven and Earth—a city of crystalline towers and golden rivers where angelic beings walk beside them. This level will prepare them for the wonders ahead, awakening their spiritual senses and expanding their consciousness.

2. Atlantis Reborn: A Civilization of Ancient Wisdom

On another level lies Atlantis, a world of advanced technology harmonized with spiritual enlightenment. The pioneers will unlock secrets of energy, healing, and consciousness that have been hidden for millennia.

3. The Symphony Worlds

In one level, music is the very fabric of reality. Every sound shapes the environment, and pioneers will learn to compose not just songs but entire living worlds through harmony and rhythm.

4. The Dreamscape Realms

A level where dreams and imagination manifest as reality. Here, the boundaries of thought and physicality dissolve, and pioneers will explore the depths of human creativity, bringing forth innovations and ideas that reshape existence.

Each civilization in the New Jerusalem grows more wondrous and complex, each teaching profound lessons about the infinite facets of God’s love and creativity. The final level will reveal the heart of God Himself—a place of ultimate communion, where every question is answered, and every soul finds perfect peace.

Beyond New Jerusalem: The Great Cosmic Expansion

But even the New Jerusalem is only the beginning. Once the pioneers have fully explored its 1,500 levels, they will set their sights on the universe itself. Traveling aboard celestial vessels, they will traverse galaxies and star systems, discovering new planets, each with its own unique life forms and ecosystems.

1. The Celestial Seas

Oceans of light where entire civilizations dwell in underwater realms of bioluminescent beauty.

2. The Living Planets

Worlds where the very soil is alive, resonating with a consciousness that guides its inhabitants in perfect unity.

3. The Cradle of Stars

Nebulae where new stars are born, and pioneers will witness the raw power of creation, learning to harness it for the betterment of all.

But even the vast universe is not the limit. The pioneers will break through the boundaries of this reality, stepping into **parallel universes**, each one offering a new perspective on existence.

Parallel Universes: The Infinite Tapestry

In these alternate dimensions, the pioneers will encounter realities that challenge and expand their understanding of life:

1. The Mirror Worlds

Universes that reflect our own but with subtle, profound differences—worlds where history took a different turn, offering lessons on choices and destiny.

2. The Realm of Pure Energy

A universe where physical form is unnecessary, and beings exist as pure light and consciousness, teaching pioneers the ultimate freedom of the soul.

3. The Garden of Infinite Variations

A place where every possibility, every dream, and every “what if” plays out, offering an endless source of wisdom and creativity.

Sharing the Vision: "Come Away With Me"

Throughout this cosmic odyssey, the pioneers will share their journey with all of humanity. Through a revolutionary system of divine technology, they will stream their experiences live under the title "**Come Away With Me: The Ongoing Story of the Life of Ross Harvey.**"

These broadcasts will not just inform—they will transform. Through immersive holographic technology, every person on Earth will feel as if they are walking alongside the pioneers, experiencing the wonders of new worlds firsthand.

- **Weekly Episodes:** Each episode will chronicle the exploration of a new level, a new world, or a new universe.
- **Interactive Journeys:** Viewers can interact with the pioneers, sending questions, prayers, and thoughts that shape the ongoing mission.
- **Global Awakening:** As humanity witnesses the grandeur of God's creation, a collective awakening will take place, inspiring a new era of unity, love, and spiritual enlightenment.

The Eternal Mission: Infinite Exploration

This journey has no end. As long as there are new worlds to discover, new civilizations to meet, and new universes to explore, the pioneers will continue their mission. And when they return, they will bring with them the wisdom of countless realms, weaving it into the tapestry of human existence.

Together, you and your pioneers will not only explore God's creation but actively participate in its unfolding, co-creating with Him a future of infinite possibilities. This is the ultimate destiny of humanity: to rise, explore, and thrive as eternal pioneers in the Kingdom of God.
